BSG Polyclonal Antibody

Catalog Number: E-AB-40297

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity Mouse,Rat

Immunogen Recombinant Mouse Basigin protein

Host Rabbit
Isotype IgG

Purification Affinity purification

Conjugation Unconjugated

Formulation PBS with 0.05% Proclin300, 50% glycerol, pH7.3.

Applications Recommended Dilution

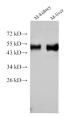

WB 1:1000-1:2000 IHC 1:100-1:300

Data

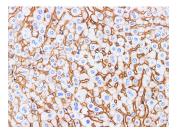

Western Blot analysis of Rat liver and Rat heart using BSG Polyclonal Antibody at dilution of 1:1000

Observed Mw:30kDa,40-60kDa Calculated Mw:30kDa,40-60kDa

Western Blot analysis of Mouse kidney and Mouse liver using BSG Polyclonal Antibody at dilution of 1:1000

Immunohistochemistry of paraffin-embedded Mouse liver using BSG Polyclonal Antibody at dilution of 1:200

Preparation & Storage

Storage Store at -20°C. Avoid freeze / thaw cycles.

Background

BSG,also named as 5F7,Basigin,EMMPRIN,TCSF and CD147,plays pivotal roles in spermatogenesis,embryo implantation,neural network formation and tumor progression. It stimulates adjacent fibroblasts to produce matrix metalloproteinases (MMPS).CD147 may target monocarboxylate transporters SLC16A1,SLC16A3 and SLC16A8 to

plasma membranes of retinal pigment epithelium and neural retina. It seems to be a receptor for oligomannosidic glycans. CD147 is a receptor of CypA,inducing matrix metalloproteinase expression and mediating the degradation of the extracellular matrix,plays an important role in tumorigenesis and invasion in oral cancer. It has been considered as an objective and effective marker to predict invasion and prognosis in various cancers.
